

region cape town / available from july 2022 / position term short to medium  
detail focused / team player / go-getter / 10+ years experience

## senior architectural technologist

cape town / western cape

We are pleased to announce that two short to medium term contract posts are available in our Cape Town studio for Senior Architectural Technologists.

The positions are divided into territories and will include work in the Cape Metro area and along the West Coast, including Vanrhynsdorp.

Successful candidates must have extensive experience in the detailing, documentation and construction of medium to large-scale projects, and must be skilled in services coordination, attending site meetings, performing quality control inspections and managing the building contract.

10+ years experience required, plus a formal qualification as Architectural Technologist from a recognised institution.

Candidates must be proficient in Revit, Autocad, as well as the full Microsoft Office suite.

Requirements:

- Formal Qualification as Architectural Technologist from a recognised Institution
- Positive Team spirit and great team player
- Self-driven, proactive, autonomous and reliable
- Detail oriented & rigorous
- Ability to multitask and work under pressure
- "Can do" attitude / "go getter" mindset
- 10+ years of Architectural experience
- Extensive experience in design development, construction and procurement documentation, construction and contract management (preferably NEC) of all types of general buildings
- Proficient in Revit, Autocad, as well as the full Microsoft Office suite

Candidates required to submit portfolio of works with CV to [office@ctn.gapp.net](mailto:office@ctn.gapp.net)  
with the subject line "Senior Architectural Technologist – July 2022"
